

<b>Sporazum</b>	<b>Agreement</b>
med upravami Avstrije, Češke republike, Nemčije, Madžarske, Slovaške republike, in Slovenije	between the Administrations of Austria, the Czech Republic, Germany, Hungary, the Slovak Republic and Slovenia
usklavjanju frekvenčnih pasovih frekvenčnih pasovih	on the frequency coordination for systems for the fixed wireless access (FWA) in the bands
24.549 – 25.053 GHz in 25.557 – 26.061 GHz	24.549 – 25.053 GHz and 25.557 – 26.061 GHz
Dunaj, 28. november 2000	Vienna, 28 November 2000

## **1 Uvod**

V skladu z *Dunajskim sporazumom 1999* so uprave za telekomunikacije Avstrije, Češke republike, Nemčije, Madžarske, Slovaške republike in Slovenije sklenile ta sporazum za usklajevanje frekvenc za sisteme FWA (fiksni brezžični dostop) v frekvenčnih pasovih 24.549 – 25.053 GHz in 25.557 – 26.061 GHz Uporablajo se ustrezne določbe *Dunajskega sporazuma 1999*, razen če ni v tem sporazumu določeno drugače.

## **2 Načela – ozadje**

- 2.1 Navedene uprave so menile, da je treba skleniti sporazum o določitvi prednostnih frekvenc za sisteme FWA, ki uporabljajo tehnologijo FDD. Razdelitev kanalov v tem sporazumu ustreza priporočilu CEPT/ERC T/R 13-02 priloga B. Uporaba frekvenčnih pasov se sklada s priporočilom ERC (00)05 za tehnologijo FDD.
- 2.2 Prednostne frekvence so frekvence, ki jih lahko dodelijo uprave brez usklajevanja, če so izpolnjene določbe iz odstavka 3.3 tega sporazuma.
- 2.3 Neprednostne frekvence so frekvence, ki jih lahko dodelijo uprave brez usklajevanja, če so izpolnjene določbe iz odstavka 3.4 tega sporazuma.
- 2.4 Obvestila o podatkih za centralne postaje posameznega omrežja FWA se izmenjujejo v skladu s prilogo 2.
- 2.5 Ta sporazum je osnova za delovanje sistemov FWA.

## **1 Introduction**

In the framework of the “Vienna Agreement 1999”, the Telecommunication Administrations of Austria, the Czech Republic, Germany, Hungary, the Slovak Republic and Slovenia concluded this agreement for the purpose of the frequency coordination for the fixed wireless access (FWA) systems in the frequency bands 24.549 - 25.053 GHz paired with 25.557 - 26.061 GHz. The relevant provisions of the “Vienna Agreement 1999” shall apply unless otherwise laid down in this agreement.

## **2 Principles – Background**

- 2.1 The Administrations mentioned above deemed it necessary to conclude an agreement on the division of preferential frequencies for FWA systems using FDD technology only. The channel arrangement used in the agreement is in conformity with CEPT Recommendation T/R 13-02 Annex B. The use of the frequency bands shall be in accordance with ERC Recommendation (00)05 for FDD systems.
- 2.2 Preferential frequencies are frequencies which can be assigned by Administrations concerned without any coordination, provided that the provisions laid down in Paragraph 3.3 of this agreement are fulfilled.
- 2.3 Non-preferential frequencies are frequencies which can be assigned by Administrations concerned without any coordination, provided that the provisions laid down in Paragraph 3.4 of this agreement are fulfilled.
- 2.4 Notifications for assignments for the central stations of each FWA network and for each station in a point-to-point application will be exchanged according to Annex 3.
- 2.5 This agreement is considered to be the basis for the operation of

	<p>2.6 Da se vsaki upravi omogoči odločitev o tem, v katerih podpasovih se sistem FWA lahko uvede in kolikšno bo število operaterjev, se upošteva celoten frekvenčni pas 24.549 - 25.053 GHz skupaj s frekvenčnim pasom 25.557 - 26.061 GHz.</p> <p>2.7 Celoten frekvenčni pas 24.549 - 25.053 GHz skupaj s pasom 25.557 - 26.061 GHz se deli na podpasove, v katerih je vsaki upravi zagotovljen enakovreden dostop do spektra. To vsaki upravi omogoča, da zagotovi posameznemu operaterju ustrezne pogoje delovanja. Razdelitev frekvenc, kot je opredeljena v tem sporazumu, je lahko predmet dvo- ali večstranskih uskladitev, o katerih se pogaja za vsak primer posebej, če je za zahtevo po dejanskih frekvencah na posameznih mejnih območjih pristojnih držav potrebna sprememba frekvenčne razdelitve.</p> <p>2.8 Operaterji lahko sodelujejo, zato da se zmanjšajo medsebojne motnje in da se doseže najučinkovitejša uporaba spektra, ki je na voljo. Te sporazume med operaterji potrdijo pristojne uprave.</p>	<p>FWA systems.</p> <p>2.6 In order to enable each Administration to decide on its own in which subbands FWA may be introduced and to decide on the number of operators, the entire frequency band 24.549 - 25.053 GHz paired with 25.557 - 26.061 GHz was taken into account.</p> <p>2.7 The entire band 24.549 - 25.053 GHz paired with 25.557 - 26.061 GHz is divided into a number of sub-bands in which equal access to the spectrum is ensured for each Administration. This should enable each Administration to provide adequate operating conditions for each operator. The frequency partitioning as outlined in this agreement may, however, be subject to bi- or multilateral accommodations negotiated on a case by case basis in the event that the actual frequency demand in particular border areas of the countries concerned requires modification of the frequency partitioning.</p> <p>2.8 Operators shall have the possibility to co-operate in order to minimise interference and to achieve the most efficient use of the available spectrum. Such agreements between operators shall be subject to confirmation by the Administrations concerned.</p>
3	<h3>Tehnične določbe</h3> <p>3.1 Prednostne frekvence je določena v prilogi 1.</p> <p>3.2 Splošni pregled razdelitve geografskih področij ob meji je določen v prilogi 2.</p> <p>3.3 Pri oddajnikih, ki uporabljajo prednostne frekvence, spektralna</p>	<h3>Technical provisions</h3> <p>3.1 The partitioning into preferential frequencies is described in Annex 1.</p> <p>3.2 A rough overview of the border lines as divided into different zones is shown in Annex 2.</p> <p>3.3 Transmitters using preferential frequencies may produce a</p>

<p>gostota pretoka moči (pfd) pri oddaljenosti 15 km v sosednji države ne sme presegati <math>-105 \text{ dBW}/(\text{MHz} \times \text{m}^2)</math>.</p>	<p>spectral power flux density not exceeding <math>-105 \text{ dBW}/(\text{MHz} \times \text{m}^2)</math> at a distance of 15 km in the neighbouring country.</p>
<p>3.4 Pri oddajnikih, ki uporabljajo neprednostne frekvence, spektralna gostota pretoka moči na meji s sosednjo državo ne sme presegati <math>-105 \text{ dBW}/(\text{MHz} \times \text{m}^2)</math>.</p>	<p>3.4 Transmitters using non-preferential frequencies may produce a spectral power flux density not exceeding <math>-105 \text{ dBW}/(\text{MHz} \times \text{m}^2)</math> at the border to the neighbouring country.</p>
<p>3.5 Spektralna gostota pretoka moči, ki povzroča motnjo, se izračuna glede na priporočilo ITU-R P.452-8 za prenos v praznem prostoru. Metoda izračunavanja se bo ponovno določila, ko bo na voljo usklajen program izračunavanja, ki ga razvija TWG-HCM.</p>	<p>3.5 The calculation of the interfering spectral power flux density shall be based on the ITU-R Recommendation P.452-8. The calculation shall be carried out on the basis of free space propagation only. The calculation method shall be reconsidered after the availability of the harmonized calculation program developed by TWG-HCM.</p>
<p>3.6 Če se pojavi več motenj na kateri koli točki, se skupna motnja izračuna tako, da se seštejejo posamezne vrednosti spektralne gostote pretoka moči.</p>	<p>3.6 In case of multiple interferers at any point of the interference contour the resulting interfering signal shall be derived by summing up the contributing PFD values.</p>
<p>3.7 Frekvenčni pasovi se lahko uporabljajo tudi za sisteme točka-točka z upoštevanjem določb iz odstavkov 3.1 - 3.6.</p>	<p>3.7 Administrations may use these frequency bands also for point-to-point applications observing the technical provisions given in paragraph 3.1 - 3.6.</p>
<p><b>4 Postopek ob škodljivih motnjah</b></p>	<p><b>4 Procedure in case of harmful interference</b></p>
<p>4.1 Če se pojavijo škodljive motnje, se morajo prizadete uprave o tem obvestiti in si prizadevati za rešitev, ki bo sprejemljiva za vse.</p>	<p>4.1 In cases of harmful interference the Administrations affected shall inform each other and endeavour to mutually find solutions.</p>
<p>4.2 Za izmenjavo podatkov med upravami se uporabljajo tehnični parametri iz priloge 3.</p>	<p>4.2 For exchange of data between Administrations the technical parameters as described in Annex 3 shall be used.</p>
<p><b>5 Sprememba sporazuma</b></p>	<p><b>5 Revision of this agreement</b></p>
<p>Ne glede na določbe iz odstavka 2.7 (zadnji stavek) se ta sporazum lahko</p>	<p>Notwithstanding the provisions in paragraph 2.7 (last sentence), this</p>

spremeni ob upoštevanju administrativnih, ureditvenih ali tehničnih sprememb na predlog katere koli uprave podpisnice sporazumno z drugimi upravami podpisnicami. Tak predlog se pošlje avstrijski upravi.

agreement can be revised in the light of administrative, regulatory or technical developments at the proposal of any Signatory Administration with the agreement of all other Signatory Administrations required. Such a proposal shall be forwarded to the Austrian Administration.

## 6 Odpoved sporazuma

Vsaka uprava lahko odpove sporazum ob koncu vsakega koledarskega meseca, tako da svojo namero sporoči vsaj šest mesecev vnaprej. Izjava o odpovedi se naslovi na avstrijsko upravo. Dodeljene frekvence, ki so bile sporočene v skladu s tem sporazumom pred datumom začetka veljavnosti odpovedi, ostanejo veljavne in se zaščitijo glede na njihov status.

## 6 Withdrawal from this agreement

Any Administration may withdraw from this agreement by the end of a calendar month by giving notice of its intention at least six months in advance. A declaration to that effect shall be addressed to the Austrian Administration. Frequency assignments notified within the framework of this agreement prior to the date of entry into force of the withdrawal shall remain valid and shall be protected according to their status.

## 7 Datum, ko sporazum začne veljati

Sporazum začne za vsako upravo veljati tisti dan, ko ga podpiše.

Ta sporazum je v angleškem jeziku in se hrani pri avstrijski administraciji kot depozitarju tega sporazuma.

## 7 Date of entry into force

This agreement enters into force for each administration at the date of its signature.

The original text of this agreement written in English is retained by the Austrian Administration as the handling Administration of this agreement.
